

Bootstrap 5 Range

[< Previous](#)[Next >](#)

Custom Range

To style a range menu, add the `.form-range` class to the input element with `type="range"`:

Custom range

Default range 

Example

```
<label for="customRange" class="form-label">Custom range</label>  
<input type="range" class="form-range" id="customRange">
```

[Try it Yourself »](#)

Steps

By default, the interval between the range numbers is 1. You can change it by using the `step` attribute:

Example

```
<input type="range" class="form-range" step="10">
```

Min and Max

By default, the minimum value is 0 and maximum value is 100. You can use the `min` and/or `max` attribute change it:

Example

```
<input type="range" class="form-range" min="0" max="4">
```
